

HIGH CHEMICAL RESISTANCE

CABLE MANUFACTURER CABLE JACKET

AVIENT SOLUTION

ECCOH™ LSFOH 5806 Formulation

WHY AVIENT?

- Developed a formulation with oil resistance as per the NEK 606 technical specification
- Allowed our customer to use the same cable design in various climates due to its wide operating temperature range
- Provided expertise to improve manufacturing efficiencies, helping the customer achieve higher processing speeds

KEY REQUIREMENTS

- Operating temperature from -40°C to 70°C
- High gel resistance
- Low shrinkage
- Strippable for easy installation
- Good flame retardancy
